No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

Option would cost my family more. But it is the right thing for our community. It's not right that our school kids have to pay bus fares to get to school. Our school zones are getting bigger with super schools so more kids are not in walking distance to their local school. We don't want parents driving their kids to school. And we don't want families struggling to pay for buses. Free buses for kids will contribute to achieving equity in education.

Any other comments on bus fares?

We need the bus routes reviewed. They are still in a post earthquake design which doesn't suite our return to the CBD.
