Subject: Submission on draft Annual Plan 2022/23

Anonymous User just submitted 'Draft Annual Plan 2022/23 submission' with the responses below.

First name

Shaun

Last name

Bosher

Email address

Suburb

Woolston, Christchurch

Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

40-64 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

Improves mobility for low income houses, especially as fuel costs increase. Improves safety outcomes if it moves them out of low star rated cars which they probably own. Therefore can help on road to zero outcomes

Any other comments on bus fares?

Just try and improve bus priority, so people are more encouraged to use them

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

How else might we pay for our share of this work?

Regionally targeted rate

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Creating a slush fund from rates to try and ease burden of cost at the time. A bit like EQC, but just do a better job than them!

Which option for distribution of rates in Ashburton River rating district do you support?

Option 1 (preferred): Redistribute rates in the Ashburton River rating district.

Any other comments on flood protection in Ashburton?

No

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Planting trees in low socio economic areas to increase tree canopy. Planting more native trees in general (supporting local councils to do it in their districts in urban areas. More electric buses

Any other comments on future funding for responding to climate change?

Try and be a leader rather than a follower in terms of policy making etc

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

No

Where did you hear about the consultation?

Email
