No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

It costs quite a lot of me to go from uni then back to home. It's \$5 a day which adds up quite a lot in the long run and it feels unfair to me that students <19 years old are allowed cheaper fares yet I have to pay quite a lot. It would also help lower emissions as less people would be driving to school, uni and work.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Don't know

Where did you hear about the consultation?
