Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

Option 2 is would be fair for everyone. We should all be able to access the public transport and pay fairly. Whether student, disabled, old we are all going through different circumstances in life specifically this pandemic. Reducing the fare for some people in expense of others is totally not okay reducing the fare for selected people only. I am well fit, no children, not student but I work hard every single day to get though my bills and not to depend on anyone or even to our government. A reduction in the bus fair would greatly help me go to work daily specifically during winter and going home from night shifts at work.

Any other comments on bus fares?

I hope daily commuters can get a free ride when they reach a particular amount spent or number of rides. Like a freebie that other services do to encourage people to patronize bus services and not to drive :)

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes

Where did you hear about the consultation?
