Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

Yes

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

Significant reduction in costs to all commuters. Will not require proof of tertiary education status etc. Better than free fares as these often attract people to ride the bus even when they don't have a destination, which can be problematic.

Any other comments on bus fares?

A change to bus fares is needed so either option two or option one would be great. I agree that changes to fares for low income/CSC holders as well as tertiary students is necessary as currently the fares are currently quite high for the service that is provided. Logistics of providing discounts for tertiary students specifically will be quite complicated and cause many issues I believe.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes

Where did you hear about the consultation?
