**Are you submitting on behalf of an organisation?**

No, I'm submitting as an individual

---

**Which age category are you in?**

25-39 years old

---

**Do you wish to speak to your submission at a Council hearing?**

No

---

**Which bus fare structure option would you like to see trialled?**

Option 3: Tertiary student concession

---

**Tell us more about why you support the selected bus fare option.**

I would be worried that if fees are reduced from the current setting to Option 1 or 2 then these costs would be factored into general rates elsewhere. It should be a user-pays system, not rates based. The current fee structure is affordable but adding in a fee for Tertiary students would make it fairer.

---

**Any other comments on bus fares?**

Option 3 could also include Community Services Card holders as well. So a combined fee approach for tertiary students and CSC holders.

---

**Is borrowing and repaying through general rates the right approach for this regionally significant event?**

Don't know

---

**How else might we pay for our share of this work?**

Insurance held by ECan?

---

**How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?**

Insurance held by ECan? A portion in rates based on location and likelihood of flooding events in any given area/location. Or a levy like an Earthquake levy but proportional to the location of possible flooding events?

---

**Which option for distribution of rates in Ashburton River rating district do you support?**

I don't have a preference

---

**Would you support a levy to accelerate action in response to climate change?**

Don't know

---

**Where did you hear about the consultation?**
