Subject: Submission on draft Annual Plan 2022/23

Anonymous User just submitted 'Draft Annual Plan 2022/23 submission' with the responses below.

First name

Wayne

Last name

Moore

Email address

Suburb

Christchurch Central, Christchurch

Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

40-64 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

It is more helpful for those let able to afford to pay while retaining fares reasonable for those on better incomes. It also allows for more safety as people will take buses, especially at night, and are less likely to use the e-scooters that are carelessly left on the footpaths.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

How else might we pay for our share of this work?

A Levy on new building projects and private vehicles to be in a fund directed for this purpose like ACC works. Too cars have only one occupant n them, this could be applied to private households who own more than one car, especially SUVs and modified vehicles (often make a lot of noise on Friday and Saturday nights), and on cars with stereo sound systems able to project above 20 dB.

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

A Levy provided for this purposed as outlined above.

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Any other comments on flood protection in Ashburton?

A regional-wide levy should apply we all use roads throughout the region.

Would you support a levy to accelerate action in response to climate change?

Don't know

Where did you hear about the consultation?
