Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

Yes

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

Make travel as cheap as possible for as many people as possible. While money can be tight for under 25s, people in their late 20s and 30s likely have children and the associated costs. Being able to take young kids on a bus rather than car can help to instill a more positive mindset in the future about public transport.

Any other comments on bus fares?

Daily caps should remain, but at a lower rate than they currently are. Remove zones, the fare structure should be as simple as possible. Have a single pricing model for a "Go Anywhere" bus service and another price for the ferry.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How else might we pay for our share of this work?

No Answer

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Rooftop solar EVERYWHERE, make it mandatory for new builds and offer subsidies for retrofits.

Where did you hear about the consultation?

Word of mouth
