Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

Yes

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

I am recently diagnosed as vision impaired so now travel by bus, we are also a low income family and have 2 young children that I bus too and from school, we would financially benefit from this scheme greatly. Please pick option one!

Any other comments on bus fares?

Second option would be the \$2 fares but really option 1 is the winner

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How else might we pay for our share of this work?

Make plans 15 years ago for this, fine tune the budget, don't waste money on expensive art, wage cuts for the top end of council workers.

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Planning ahead and prioritizing work needed, waiting till it's underwater is too late and will cost significantly more, talk to Brisbane they handle recovery well.

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

No

Any other comments on future funding for responding to climate change?

Obviously something has to happen to change it, not against that.

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

Love the bus idea!!
