Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

I think It's an amazing idea to help those with a community services card. I can see this as being extremely helpful for those who need to collect kids from school and the trouble some people have in being able to afford to go to work. I know some people find the cost of travelling to work hard and I also think it would encourage people to use public transport. It would also help people who have disabilities or medical conditions to be able to travel to doctors appointments etc

Any other comments on bus fares?

I really like option 1. I also think 2 is good but am not a fan of option 3
