Which bus fare structure option would you like to see trialled?

Option 3: Tertiary student concession

Tell us more about why you support the selected bus fare option.

I'm a regular bus user and would rather keep the fares more towards "user pays" than having a further increase in our rates. Any rates increase is further negative impact on our cost of living.

Cut back on other "nice to haves".

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Via the impacted lifeline utility - NZTA for state highways/bridges, Transpower for main lines, local lines companies for local repairs, NZ rail for their network.

Option 1 (preferred): Redistribute rates in the Ashburton River rating district.
