15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

I'm currently on my learners license so using the bus system quite a lot. It would be great if the fares were free as i'm a student and love to save money. I also think it's important that we think more sustainably about the ways we travel. Making the fares free would remove more students cars off the roads, making less traffic etc

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

I would like to actually see the money put to use, get young people's options first before going ahead with projects etc

Where did you hear about the consultation?
