Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

Because students don't have an income - if anyone needs it surely poor students do?

Any other comments on bus fares?

Rents around uni are getting really expensive - so we are being pushed into locations further away and we need affordable transport. If you don't more and more students are going to need to drive - it's costly to us and bad for the environment. Our situations also mean we can easily change their travel plans to start using the bus. I know the bus I get on is always empty, enticing students will mean you get more people using those buses whose flat costs aren't changing. With high petrol prices you have a rare opportunity to change how a huge section of the community travels - use it!

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

No Answer

Any other comments on future funding for responding to climate change?

Ask for more and actually do something. Last year our emissions went up - if I am honest we need to get off our asses.
