Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

I actually don't support any of them. It should be \$2 flat fare for EVERYONE or EVERYONE for free. Otherwise adults are subsidizing everyone else's fares, which isn't fair. Whether a child or old person, they are still taking up a seat.

Any other comments on bus fares?

Same price for all or free for all. Keep it simple!

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How else might we pay for our share of this work?

Targeted rate at flood prone ratepayers. Or retreat from flood prone areas.

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?
