**Are you submitting on behalf of an organisation?**

No, I'm submitting as an individual

---

**Which age category are you in?**

15– 24 years old

---

**Do you wish to speak to your submission at a Council hearing?**

No

---

**Which bus fare structure option would you like to see trialled?**

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

---

**Tell us more about why you support the selected bus fare option.**

I support option 1 as well, but I think bus fares should be cheaper for anyone of any age, not one particular group.

---

**Any other comments on bus fares?**

They are too expensive. They should be cheaper because sometimes people forget their card, and it becomes very pricey to just get there and back, it will be better for those who live rural especially. It is a lot to be paying when the trip already takes an hour and a half into some areas and most areas in Christchurch, if not more. It should be 2\$ or under. For anyone.

---

**Is borrowing and repaying through general rates the right approach for this regionally significant event?**

Don't know

---

**How else might we pay for our share of this work?**

No idea.

---

**How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?**

I don't know because I don't actually remember.

---

**Which option for distribution of rates in Ashburton River rating district do you support?**

Option 1 (preferred): Redistribute rates in the Ashburton River rating district.

---

**Any other comments on flood protection in Ashburton?**

I have no idea, I don't know enough to comment whatever is fairer on people and makes them struggle less.

---

**Would you support a levy to accelerate action in response to climate change?**

Yes

---

**What current or future projects or activities would you like to see funded by such a levy?**

I actually don't have a clue.

---

**Any other comments on future funding for responding to climate change?**

No idea.

---

**Any other comments on Environment Canterbury's draft Annual Plan or other matters?**

No, as I don't know enough, do what is best for the environment and people. Only want the world to be a better place. However economically, environmentally and socially fair in which it can be made for people.
