Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

Being a former student living in Christchurch getting the max student loan which is only 240 a week, I understand not being able to simply afford a bus trip. Christchurch is so spread out you need transport just to get anywhere. Being able to help people who are working towards their future with no money, and others who need assistance is what everyone should be doing, it's the human way.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Through a government willing to help its cities in time of need. I feel like this one is a no brainer

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes

Where did you hear about the consultation?
