Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

This affects not just tertiary students but also the families of secondary students, broadening both the socioeconomic and the decongestion/emissions effects of the trial.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How else might we pay for our share of this work?

Regional taxes on the consumption of high negative environmental impact goods and services.

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Local government buyback of older, higher emission vehicles as per the VAVR programme in California. The recycling of these vehicles coupled with free public transport for a period based on the level of emissions removed from the road would encourage and enable community buy in, and maximise emissions reduction.

Any other comments on future funding for responding to climate change?

The earlier our response the cheaper it can be. I support any and all funding measures to resolve the climate crisis.
