Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

Because it will reduce total greenhouse gas emissions but the greatest estimated amount.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How else might we pay for our share of this work?

No clue, ask a expert

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

See Question 13

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Any other comments on flood protection in Ashburton?

See Question 13

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Waterway cleanups, mass plantation of native forest, construction of desalination plants and pursuit of total takeover of renewable energy

Any other comments on future funding for responding to climate change?

No amount is too high, no price too grave to ensure a safe planet for my grandchildren and their grandchildren and so on.

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

I would support a further increase of action over the current plan.

Where did you hear about the consultation?
