Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

I think that having free fares for young people is very important as it makes it more accessible for those that may not have jobs, those who are low on money or in low-income households, as well as university students who need to save money to pay off student loans. Additionally, children who may be dependent on their parents for money should not have to pay for public transport if their caregivers are unable to take them themselves.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know
