Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

40-64 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

I'd like it accessible to all age groups, not just groups, and to keep it simple

Any other comments on bus fares?

I remember when we had a wonderfully free city shuttle circular bus (for shopping). Bring that back! I also wish our trams could be used for residents, not just tourists, and wish it went out further, such as up Victoria Street, etc.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

I'd like national rates and not just local residents to help pay as all Kiwis pass through Canterbury on the South Island. South Islanders have helped pay for Auckland trains, bridges, etc., as an example.

Which option for distribution of rates in Ashburton River rating district do you support?

Option 1 (preferred): Redistribute rates in the Ashburton River rating district.

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Maybe solar panels as the regional council helped end open fires

Where did you hear about the consultation?
