No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

I believe it would make an immense change in the way that students and under 25's get around. This would not only support said students but also the environment as it would result in less emissions due to less personal transport being used such as cars. Overall I see this as a win win.

Would you support a levy to accelerate action in response to climate change?

Yes

Where did you hear about the consultation?
