Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

This will allow for the average bus passenger going between zones to save \$650 a year while allowing some farebox recovery and reducing an increase in rates. It would also mean that as fuel costs decrease due to more electric buses the farebox recovery ratio will increase and allow for sustainable transport both financially and for the environment

Any other comments on bus fares?

If they remain capped at 10 per week this will be highly beneficial to commuters from Rolleston and Rangiora easing congestion on motorways

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Sustainable public transport with battery electric trains to Rangiora and Rolleston and more renewable energy projects

Where did you hear about the consultation?

Other (please specify) - Poster on a bus
