Subject.	Submission on draft Affidal Plan 2022/25	
Anonymous User just sub	omitted 'Draft Annual Plan 2022/23 submission' with the responses below.	
First name		
Maree		
Last name		
Hemmingsen		
Email address		
Suburb		
Russley, Christchurch		
Phone number		
Are you submitting on be	shalf of an organisation?	
No, I'm submitting as an individual		
Which age category are y	ou in?	
40-64 years old		

Do you wish to speak to your submission at a Council hearing? No Which bus fare structure option would you like to see trialled? Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3 Tell us more about why you support the selected bus fare option. Currently the bus system suits a small minority of people and costs are ridiculous for the continuing diminishing service and route changes. Any other comments on bus fares? Having to now drive to the bus stop thanks to the improved service the fares have to justify my parking and bussing to town over driving all the way Is borrowing and repaying through general rates the right approach for this regionally significant event? No How else might we pay for our share of this work? Employ someone who is competent in the first place and actually do what you have been gobbing on about for the last 20 years.

Having to now drive to the bus stop thanks to the improved service the fares have to justify my parking and bussing to town over driving all the way Is borrowing and repaying through general rates the right approach for this regionally significant event? No How else might we pay for our share of this work? Employ someone who is competent in the first place and actually do what you have been gobbing on about for the last 20 years. How do you think recovery from flooding of this scale – events that impact state highways, bridges,	, , , ,
Is borrowing and repaying through general rates the right approach for this regionally significant event? No How else might we pay for our share of this work? Employ someone who is competent in the first place and actually do what you have been gobbing on about for the last 20 years. How do you think recovery from flooding of this scale — events that impact state highways, bridges,	Any other comments on bus fares?
How do you think recovery from flooding of this scale – events that impact state highways, bridges,	
How else might we pay for our share of this work? Employ someone who is competent in the first place and actually do what you have been gobbing on about for the last 20 years. How do you think recovery from flooding of this scale – events that impact state highways, bridges,	
Employ someone who is competent in the first place and actually do what you have been gobbing on about for the last 20 years. How do you think recovery from flooding of this scale – events that impact state highways, bridges,	No
about for the last 20 years. How do you think recovery from flooding of this scale – events that impact state highways, bridges,	How else might we pay for our share of this work?
	How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Planning, proactively working in the environment and stop letting braided rivers be consumed by other activities, including farming. Again employ someone who knows about rivers.

Which option for distribution of rates in Ashburton River rating district do you support?
I don't have a preference
Would you support a levy to accelerate action in response to climate change?
Yes
What current or future projects or activities would you like to see funded by such a levy? Any of the ones E.Can consistently pouts on hold to stay popular instead of actually doing their job. They
can't do any less than they are now so everything, informed by real scientists (not the E.Can muppets) must help.
Any other comments on future funding for responding to climate change?
If you had started when you said you would we would be at least 20 years ahead by now. Your incompetence has cost Canterbury too much already
