Subject: Submission on draft Annual Plan 2022/23

Anonymous User just submitted 'Draft Annual Plan 2022/23 submission' with the responses below.

First name

Roger

Last name

Ellery

Email address

Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

65+ years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

I don't have a preference

Tell us more about why you support the selected bus fare option.

The large buses I ride on are usually empty. Most people prefer the door to door convenience of cars and they will continue to do so. Buses are inefficient and out of date so think of a better way.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

No

How else might we pay for our share of this work?

Stop wasting money at Ecan and fund it from your reserves.

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

As above.

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

No

Any other comments on future funding for responding to climate change?

I have been to an Ecan climate change meeting and it was thoroughly unconvincing. I find it unbelievable that you would even think of imposing a climate change levy after the financial impact of Covid.

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

Do not levy rate payers for something that may or may not happen a long way into the future. Our rates are far too high already.

Where did you hear about the consultation?
