Suburb

Upper Riccarton, Christchurch

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

To continue to show Otautahi and our commitment to climate change, I believe getting more people on public transport by increasing the money saved by making the public transport services free is the only option the council should choose. By not making changes to our city like this now, we're not preserving our way of life for generations to come. If we don't start trying to do the most to stop global warming now, it's gonna get too late. Listen to the people, listen to all the high school students, listen to university students and make Otautahi a city we want to continue to live in!

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

By local councils, but also by surrounding councils. If Christchurch city was flooded, I would hope that local councils would help us out to pay for recovery.

Which option for distribution of rates in Ashburton River rating district do you support?

Option 1 (preferred): Redistribute rates in the Ashburton River rating district.

Would you support a levy to accelerate action in response to climate change?

Yes

Where did you hear about the consultation?
