No, I'm submitting as an individual

**Which age category are you in?**

15– 24 years old

---

**Do you wish to speak to your submission at a Council hearing?**

No

---

**Which bus fare structure option would you like to see trialled?**

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

---

**Tell us more about why you support the selected bus fare option.**

It allows under 25's (and others) free access to buses. I feel as though we use public transport the most and if there was 1 more buses (or more frequently) alongside free fares, I would be much more likely to use the bus as it reduces carbon emissions and helps a little bit with the environment

---

**Is borrowing and repaying through general rates the right approach for this regionally significant event?**

Don't know

---

**How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?**

The government should pay as it's not our fault a flood happened. It's not theirs either but they have more resources and are responsible for the country
