Halswell, Christchurch

Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

40-64 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

I don't have a preference

Tell us more about why you support the selected bus fare option.

I see empty busses that are too frequent and take too long a 15 min journey to the city takes 40 mins

Any other comments on bus fares?

I do not want my rates increased to pay for cheaper bus fares that no one I know uses, no use for 95% of the journeys I make

Is borrowing and repaying through general rates the right approach for this regionally significant event?

No

How else might we pay for our share of this work?

rates from affected areas

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

goverment spending they have wastes so much on TV advertising the covid fune and te reo

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Any other comments on flood protection in Ashburton?

government needs to put hands in pockets form the road funding rather than wasting money on advertising speed limits rather than upgrading rail or shipping for heavy transportation

Would you support a levy to accelerate action in response to climate change?

No

Any other comments on future funding for responding to climate change?

there is a cost of living crisis pay not going up 6+% inflation and you want to do massive rates rises - penalise home owners for poor policy decisions!!! and wastefull spending.

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

DO not put rates up!!!!!! too expensive and penalising home owners how about using general tax revenue!!

Where did you hear about the consultation?
