Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

I support the first structure option because as a full-time university student, I take the bus to and from campus 5 days a week. And since taking the bus is my main transportation trialling option 1 will immensely be financially beneficial for students like myself.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

By the government.

Which option for distribution of rates in Ashburton River rating district do you support?

Option 1 (preferred): Redistribute rates in the Ashburton River rating district.

Any other comments on flood protection in Ashburton?

Ashburton's 2021 flood was and is a significant event, and NZ as a whole should be responsible for funding Ashburton's flood recovery and it should not entirely depend on the Ashburton residents.

Would you support a levy to accelerate action in response to climate change?

Yes
