Tell us more about why you support the selected bus fare option.

I think free bus fares for the selected groups is a great idea. Speaking personally from the perspective of a student, free bus fares would make a big difference to myself and a lot of other people with regards to transport to and from university. Parking permits at the uni are extremely expensive, and walking is not an accessible or practical option for a lot of people. While biking is a great option, it is a lot more cost-prohibitive, and again not an option that works for everyone. Bussing for free provides an environmentally friendly, accessible, reliable option to so many people and I could not support it more.
