No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

I commute to university from Rangiora every day, as does my brother, and while this is much cheaper than driving, the cost of bus fares, the cost does mount up. I think it would be beneficial to offer free public transport to targeted groups, as this will give people more access to education etc, that they may have been unable to pay for otherwise. This would also encourage more people to use public transport which will be beneficial for the environment.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know
