Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 3: Tertiary student concession

Tell us more about why you support the selected bus fare option.

Because its the fairest to everyone. It helps tertiary students who are poor and also doesn't make poor people pay more rates when some of them probably don't even use the bus.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How else might we pay for our share of this work?

Get free budgeting advise ... there are lots of places that can help with that

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Does the council have investments? Are they good investments?

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Any other comments on flood protection in Ashburton?

I don't live here so I don't have a prefereance

Would you support a levy to accelerate action in response to climate change?

No

Any other comments on future funding for responding to climate change?

Use income from investments. If the investments aren't performing then take the money out and put it into a business that will perform well and give better returns.

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

Keep our water safe. You are supposed to be looking after our resources. You are letting people make money off it overseas. That is so wrong. Keep our water in New Zealand.

Where did you hear about the consultation?

Word of mouth
