Are you submitting on behalf of an organisation?

Yes, I'm submitting on behalf of an organisation

Which organisation are you submitting on behalf of?

University of Canterbury Students

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

Because I catch the bus everyday to uni and alot of people use it but not enough so by making it free for under 25 would get people off the road in cars and into buses, where they should be.

Any other comments on bus fares?

If you dont go with option one reduce them significantly to a flat \$1 fare it would be alot better financially and sustainably.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How else might we pay for our share of this work?

Government incentives to get people off roads and using buses? Or it could be local councils doing as well?

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

That's up to the council where and how they get they're money from not us you already get enough just make a decision.

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Any other comments on flood protection in Ashburton?

None

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Free buses
