Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

I feel the majority of the population of bus users fall into these categories. Students need to get to school, under 25's like to be mobile but may not be able to afford a car. It provides incentive for the people fitting in these categories to use public transport more, reducing pollution from car travel, and reducing traffic on the roads.

Any other comments on bus fares?

Even if they aren't free, they need to be lowered to where it is more feasible to bus than drive, even if taking a bus takes longer and can be more unreliable

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

Where did you hear about the consultation?
