Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

I would support the first option except that I'm about to turn 25 so it would nullify any effects for me.

Any other comments on bus fares?

I would love to take the bus to work, but for the extra bit of time it takes in the morning it really has to be worth my while for me to switch, unfortunately. I think currently the amount I spend on petrol going to work and what my bus fare would be going to and fro each day of the week are about equal currently, and busting also makes it harder to do errands in the way home which is incredibly important. I wish we could pay for a day, to cover all work commutes and errands.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?
