Subject: Submission on draft Annual Plan 2022/23

Anonymous User just submitted 'Draft Annual Plan 2022/23 submission' with the responses below.

First name

Manon

Last name

van Zyl

Email address

Suburb

Upper Riccarton, Christchurch

Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

I think this bus fare will be the most beneficial all round. It offers students a safe way to get around considering many students walk home by themselves and at times late at night after studying at uni. It is also the most environmentally friendly solution as it will incentivize many more people to make use of public transport.

Any other comments on bus fares?

I don't generally use the bus because if I'm traveling short distances (short drive but potentially a long walk) I prefer not to spend the money. This bus fare structure would definitely get me to use it more!

How else might we pay for our share of this work?

I'm not very educated on this so I can't offer any valuable information

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Donations!

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Don't know

Any other comments on future funding for responding to climate change?

I feel like we pay quite a lot of tax. i think it's the government's responsibility to redistribute where tax money goes and prioritize climate change action rather than imposing even more tax on the kiwi population.
