Phillipstown, Christchurch

Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

This option makes it fair and accessible to all people travelling the bus and not just a selected percentage. I personally know numerous people who are on low income and don't have a CS card and this would help them significantly.

Any other comments on bus fares?

no.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

How else might we pay for our share of this work?

Reduce expenses in areas that can be reduced.

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Government expenditure and local authority taxes

Which option for distribution of rates in Ashburton River rating district do you support?

Option 1 (preferred): Redistribute rates in the Ashburton River rating district.

Any other comments on flood protection in Ashburton?

no

Would you support a levy to accelerate action in response to climate change?

No

Any other comments on future funding for responding to climate change?

work towards setting up a Metro rail system covering the entire Canterbury and more, Bus lanes are not the way to go in the future as they would be incredible energy wastage with buses running with very few people if not empty often. Energy wastage with fuel and electricity

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

No
