Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Any other comments on bus fares?

Adult fares are too expensive to be worth the hassle of busing for most people who work. Dropping the fares for everyone will help get more people using public transport. The preferred option won't encourage people who don't get the free bus system to use it. Surely wider use is better for the environment and traffic congestion. I prefer option 1 as it does aim to help people who need the most financial aid, but if the goal is to increase use of public transport the bus needs to be cheaper for everyone.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Renewable energies projects, cleaning up the city (rubbish in streets, waterways and drains) improving recycling infrastructure, public transport
