Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

I believe option 1 is the better choice as I want to see the largest possible shift from car usage to public transport (and ideally walking and cycling).

Any other comments on bus fares?

I do wonder if it would be a better use of the funding to retain a flat fare and use the additional revenue to invest in making the bus network more convenient to users, such as more frequent services or more local routes.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Improvements to public transport, including full electrification of the fleet and support for additional segregated cycling infrastructure.

Where did you hear about the consultation?
