Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

To create affordable public transport for all to use not only reduces our emission by not using single person vehicles; But also reduces traffic on our roads, meaning less money has to input into our maintenance of roads. As well as this it then creates far easier accessibility around christchurch without the need of a car.

Any other comments on bus fares?

They at the current rate, have for a long period of time for adults been too expensive to use and in fact, in many cases that I've seen makes using public transport actually more expensive than using your car.

Would you support a levy to accelerate action in response to climate change?

Don't know
