Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

65+ years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

It makes me use the buses and it's important the buses are used and keeps the cars out of clogging up the roads and saves me trying to find a park in the city - one day I tried 5 different places to get a park

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Any other comments on flood protection in Ashburton?

I don't live there so shouldn't have a say in this

Would you support a levy to accelerate action in response to climate change?

No

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

I wish to raise the point that foil is used by many companies and not necessary and a problem as it doesn't break down in land fill. No need for foil to be used to cover milk bottles, yoghurt containers, pills and medications can be in bottles which can be recycled - also a saving of costs to the manufacturers. A win-win situation. I hope you will be able to investigate this to reduce landfill and help the environment.
