Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

I personally don't like any of the options as a rate payer facing ever increasing daily costs - and the fact the proposal for a 24% ish rates rise is absurd. However since local councils never listen and go ahead with what ever they wish - If i have to go with an option then a lower rate for all would be my preference and balances out that everyone get's a fair deal not a few at the expense of others.

Any other comments on bus fares?

I don't agree with any that mean rates have to go up, the cost of living to normal middle income holders like myself are really hurting. paying for a few to benefit really grinds me.

Is borrowing and repaying through general rates the right approach for this regionally significant event?
