Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

40-64 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

More inclusive, many 25year old earn good money, children and elderly need more options of safe travel than someone to n their 20s who is able to work.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

No

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

I'm sure we pay enough in petrol charges and to cover this.

Which option for distribution of rates in Ashburton River rating district do you support?

Option 2 (status quo): Keep the current distribution of rates in the Ashburton River rating district.

Would you support a levy to accelerate action in response to climate change?

No

Any other comments on future funding for responding to climate change?

Think smarter, you talk about climate change but pay staff to ride a quad bike down the streets spraying harmful roundup on all the paths and fencing how is that beneficial?

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

With the increased cost of living already affecting people how do you think an increase of over 24% is going to affect people's lives? Wages do not match these increases that you expect people to pay, this will end badly with more mental health and suicide cases.
