Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

This option wouldn't personally benefit me at all but is the equitable option. Making fares free for under 25s will teach young people to use the bus. Free for community service card holders and Total mobility card users will mean they readily have access to transport and remove the cost barrier of getting out, attending appointments etc.

Any other comments on bus fares?

Please don't raise the current adult fee. For me it is currently just cheaper than driving to work which encourages me to use the bus. If the bus were more expensive then I would probably drive more.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

No

Would you support a levy to accelerate action in response to climate change?

Yes
