Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

We have designed this city to be reliant on buses. Yet they are expensive and slow. If they were free, their usage would increase and therefore we would require more frequent fares and ultimately it would be super efficient.

Any other comments on bus fares?

Also frankly the people who catch buses at the moment generally can't afford it. With the cost of living increasing so dramatically, a lessening of transport costs would really help the community.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Don't know

Any other comments on future funding for responding to climate change?

Depends on what that levy funded. I'd need more specifics on how the council plans to mitigate climate change to commit to a plan.

Where did you hear about the consultation?
