Subject: Submission on draft Annual Plan 2022/23

Anonymous User just submitted 'Draft Annual Plan 2022/23 submission' with the responses below.

First name

Vaibhav

Last name

Ghai

Email address

Suburb

Kainga, Christchurch

Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

Because if we make everything free it can't work. There gotta be some cost and at this moment with Covid and everything i highly suggest option 2 as one zone to second zone fares can be quite expensive so if we make flat fare any zones anything that would help

Is borrowing and repaying through general rates the right approach for this regionally significant event?

No

How else might we pay for our share of this work?

There should be a goverment help to council when comes to things like natural disasters. There should be some sort of support package by the Government to support council all thru NZ when comes to natural disasters and some should be borrowed still if needed

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

I agree to some extent that council should cover costs as they get money and rates but with Covid and everything i think government should have more focus on helping council so it doesnt keep adding debt

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

No

Any other comments on future funding for responding to climate change?

If you doing future Levy that should be for the things people actually deal on daily basis. Climate change is happening but council priority of using these funds should be fixing roads and natural flood disaster so they dont have to borrow as such

Where did you hear about the consultation?

Social media (Facebook, Instagram)
