Is borrowing and repaying through general rates the right approach for this regionally significant event?

No

How else might we pay for our share of this work?

ECAN councillors take a pay cut. Alternatively, charge Cloud Ocean water for the water you let them steal from their illegal borehole.

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Ummm state highways come under land transport, not YOU. Stop making up reasons for a huge money grab.

Option 1 (preferred): Redistribute rates in the Ashburton River rating district.

Make the farmers pay for it. They pillage the environment.

No

We do NOTHING to contribute to climate change. Tall to the US and your friends in China about that.

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

A 24% rates increase is daylight robbery for such a dysfunctional outfit. You shouldn't exist. We will never forget Cloud Ocean Water.
