Subject: Submission on draft Annual Plan 2022/23

Anonymous User just submitted 'Draft Annual Plan 2022/23 submission' with the responses below.

First name

Verena

Last name

McGregor

Email address

Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

40-64 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

I disagree that only special populations should receive free bus rides, as the people hit most by the inflation are "ordinary" people that get little help and benefits

Any other comments on bus fares?

I think to really encourage people to use buses as families. there should be a family fare, i.e. 2 adults and two kids pay a reduced amount and receive a metrocard each.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How else might we pay for our share of this work?

flooding is a direct result of climate change which is a direct result of greenhouse gasses. There should be more of a "user pay" system - anybody who travels more pays more - any industry that produces significant amounts of greenhouse gases gets charged more

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

as above.

Which option for distribution of rates in Ashburton River rating district do you support?

Option 1 (preferred): Redistribute rates in the Ashburton River rating district.

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Much more money shunted towards comprehensive rail cargo transportation and public transport, funding for companies who are improving their technology and processes to limit or eliminate greenhouse gases

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

No Answer

Where did you hear about the consultation?

Postcard
