**Subject:** Submission on draft Annual Plan 2022/23

Anonymous User just submitted 'Draft Annual Plan 2022/23 submission' with the responses below.

**First name**

Hana

---

**Last name**

SB

---

**Email address**

---

**Suburb**

Hoon Hay, Christchurch

---

**Phone number**

---

**Are you submitting on behalf of an organisation?**

No, I'm submitting as an individual

---

**Which age category are you in?**

25-39 years old

---

**Do you wish to speak to your submission at a Council hearing?**

No

---

**Which bus fare structure option would you like to see trialled?**

I don't have a preference

---

**Tell us more about why you support the selected bus fare option.**

A distance based fare for adults and concession for students and children up to tertiary level. The concession should be monthly e.g. \$40/mth and able to travel everywhere. Children/students can renew their pass mthly online. For distance based fare, it will calculate and deduct fares based on journey. A system has to be installed. A card is tapped in and out on a bus/train and the final deduction is based on the last tap out with about 2.5 hours of no activity (or whatever is the longest calculated time taken to take a bus from one end of chch to the other (e.g. diamond harbour to rangiora/rolleston etc.)

---

**Is borrowing and repaying through general rates the right approach for this regionally significant event?**

Don't know

---

**How else might we pay for our share of this work?**

The Ministry of transportation should pay a lion's share of this.

---

**How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?**

There should be an emergency pool fund ready for natural disasters and recovery across Aotearoa, and it's better for taxpayers money to go into this rather than to people who abuse the benefits system.

---

**Which option for distribution of rates in Ashburton River rating district do you support?**

I don't have a preference

---

**Would you support a levy to accelerate action in response to climate change?**

No

---

**Any other comments on future funding for responding to climate change?**

It should come from the taxes we are already paying! Better distribution and good handling of money as well as wise reserves investments by the Ministry of Finance, if done well, should be able to generate the funding needed

---

**Where did you hear about the consultation?**

Social media (Facebook, Instagram)
