Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

If you are wanting more users on the bus then make the fares fair for all users, not just those on lower income. It is currently cheaper for me to drive into Christchurch 5 days a week than it is to catch the bus. By only discounting the price for some people this won't increase users, target those of us who are working full-time, not on a benefit or have a community services card, we are the target you should be trying to reach.

Any other comments on bus fares?

Make it affordable for users and plan the bus routes to account for the fact people aren't travelling to the CBD for work, so many offices out of the CBD without bus routes.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

No

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

We already pay rates, it shouldn't be on us to pay more to cover these events. It is not our fault it happened.

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

No

Any other comments on future funding for responding to climate change?

no

Any other comments on Environment Canterbury's draft Annual Plan or other matters?
