Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

Most students under 25s do not have a stable job or income, especially young international students that come here, so they would like to find a way to cut costs. Most international students rely on bus transportation. Having a free bus fare would also encourage them to use the bus and explore the city more.

Any other comments on bus fares?

Introducing a flat rate (option 2) would benefit everyone in the long term as there are students over 25s that would like to cut their costs and this option seems fair. However, the free fare (option 1) would attract many users especially, young international students that come here to further their studies.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?
